

Using Promethean Clickers with Study Island

This document is designed to model how to utilize Promethean CRS clickers with Study Island. Make sure you have loaded the Promethean program on your computer prior to using with Study Island.

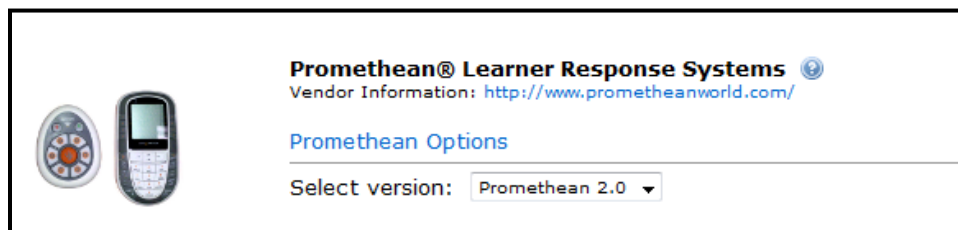

1. Log in to Study Island as a teacher.
2. Select a grade level
3. Select a subject
4. Select a topic.

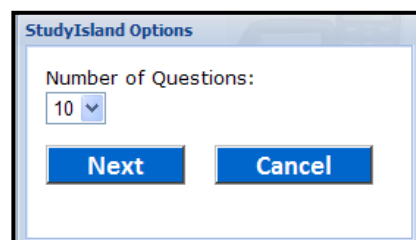

5. In the session options screen, select **Classroom Response Systems**.

6. Select **Promethean Learner Response Systems** and click **Next**.

7. Choose the number of questions and click **Next**.

- Select the class with which you will be working from the dropdown box. Their names will be displayed below along with the corresponding “clicker” they will have. You can adjust the numbers assigned by clicking in the box and typing in the number you’d like a student to use for this session.

Hints & Tips ...

Select Class

cps SESSION sample

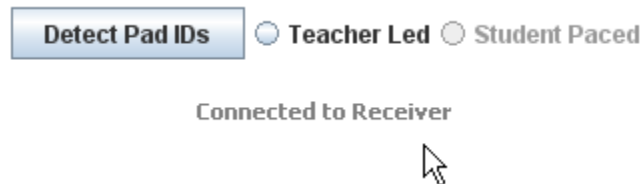

Name	Pad ID
tinker bell (tinker.bell@gretchen's)	1
miley cyrus (miley.cyrus)	2
leslie miley's friend (leslie.miley's friend)	3
hannah montana (hannah.montana)	4

Title of the class

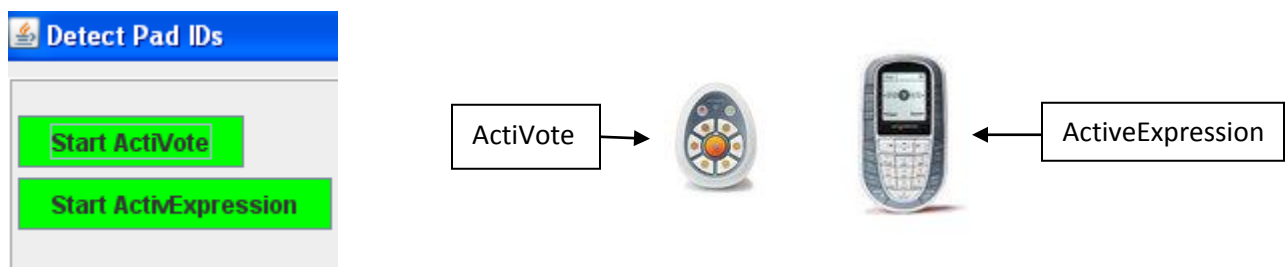

What “clicker” students are assigned to.

Note: Promethean clickers do not have the Pad ID's located on them. In order to find this number you will click need to fill in “fake” numbers and then click Next.

- When the screen loads, you will need to click Detect Pad Ids.

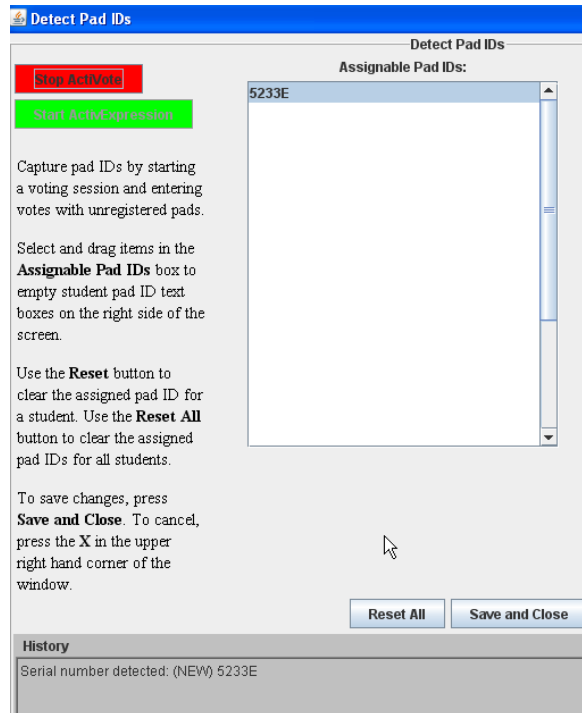

- A new window will appear. In this window you will click Start ActiVote or Start ActiveExpression depending on the model of clickers you have.

Note: You may not use 2 models of clickers at once. You are only able to use one.

11. You will then click a button on each clicker like you were answering a question. You will see that clicker number appear on the screen. Select and drag items in the **Assignable Pad IDs** box to empty student pad ID text boxes on the right side of the screen. Use the **Reset** button to clear the assigned pad ID for a student. Use the **Reset All** button to clear the assigned pad IDs for all students. To save changes, press **Save and Close**. To cancel, press the **X** in the upper right hand corner of the window.

Tip: You may want to write the ID number on the clicker for future reference.

12. Pass out the CRS clickers based on the numbers on the devices.

Selecting Teacher Led Session

What is Teacher Led?

This format allows a teacher to direct an interactive teaching activity with questions that can be projected on a big screen for all the class to see.

☒ Teacher Led ☐ Student Paced

[Start Voting](#)[Question Results](#)[Detailed Results](#)[End Session](#)

How to Use a TEACHER LED Session

1. Select this session by clicking on the small circle next to "Teacher Led" at the top of your screen.
2. Click Start Voting, and have the students answer the question using their "Clickers".
3. Click Stop Voting and then reveal the answer to the students by clicking the "Show Correct Answer" button when everyone has responded.

Principles of Design

When no one has answered the question, the boxes will be light blue.

How does contrast between black and white impact this painting?

- ☐ A It makes the focal point disappear.
- ☐ B It makes a repeating pattern in shapes.
- ☐ C It creates symmetry in the painting.
- ☐ D It makes the men look three-dimensional.

Principles of Design

1.

How does contrast between black and white impact this painting?

- ☐ A It makes the focal point disappear.
- ☐ B It makes a repeating pattern in shapes.
- ☐ C It creates symmetry in the painting.
- ☐ D It makes the men look three-dimensional.

[Explanation](#) [Show Correct Answer](#)

When a student answers, his or her clicker number will turn dark blue.

1 2 3 4

[Stop Voting](#) [Previous](#) [Next](#) [Question Results](#) [Detailed Results](#) [End Session](#)

4. When your students have completed all of the questions, you can end your session by clicking on the "End Session" button or on the "Save for Later" button at the top of the page. "End Session" will send your stats to

Study Island and you will not be able to get back to the same session again. “Save for Later” allows you to end this session and come back to it later.

Other Features

How does contrast between black and white impact this painting?

- A** It makes the focal point disappear.
- B** It makes a repeating pattern in shapes.
- C** It creates symmetry in the painting.
- D** It makes the men look three-dimensional.
